

# Dreamy

Training Stage 1–10 Yrs Old

## Background:

Dreamy was rescued from the auction in Eugene. She had been at the hands of people who didn't understand how special Arabians are. Being mistreated and passed around severely damaged her confidence and sense of security. She is also blind in one eye.

## Challenges:

The biggest challenges in her training are to earn her trust and work with her partial blindness. It's more challenging to train a horse that is blind in one eye. Which is why she is still in Training Stage 1. Desensitizing takes a lot longer with these issues. She can get very anxious and reactive, just like a panic attack for a human.

## Gifts:

We are very lucky to have her. She is young, only 10 years old. She is built lovely and has gorgeous movement. It's like she floats on air. The way she moves is *dreamy*. You can sense how sweet and engaging she is. She wants very much to have a relationship with a human.

**She wants to be with people.**
